ULTRAWOOD

Non-Combustible Timber Battens

Description

ULTRAWOOD non-combustible timber battens are available in a range of profiles providing an inspiring and attractive modern facade option with infinite design possibilities. ULTRAWOOD battens have been specifically designed by experienced commercial facade professionals to meet the demands of today's facade industry. Australian made using the finest raw materials and finish options, ULTRAWOOD battens can be secret-fixed and offer an unprecedented level of quality, safety, and longevity with an extensive range of matt-finish realistic timber colours, available in both standard and custom sizes.

Product Benefits

AS 1530.1 NON-COMBUSTIBLE

ULTRAWOOD products are made of 100% solid aluminium which is totally non-combustible to AS 1530.1. Architects, engineers, and tenants can be assured ULTRAWOOD will not burn or contribute to fire spread.

ENVIRONMENTALLY SUSTAINABLE

ULTRAWOOD solid aluminium is a 100% recyclable product. Energy, emissions, wastage and materials are saved in every aspect of the product from manufacturing, to, delivery, installation and recycling.

2-PIECE INSTALLATION

The ULTRAWOOD batten profiles have been intelligently designed to provide excellent usability such as a simple 2-piece clip-together mounting system with inbuilt screw flutes for secret fixing and structural integrity.

MINIMAL FABRICATION

ULTRAWOOD battens can be ordered to custom lengths which eliminates additional fabrication. The base clip is fixed to the main structure before the battens are simply interlocked together and the end-caps screwed into place.

PREFINISHED SYSTEM

The entire ULTRAWOOD range is pre-finished. This means there is no requirement for painting or onsite finishing. Our finish options are both attractive and durable, providing a protective coating over time.

INCREDIBLE AESTHETICS

ULTRAWOOD battens come in 6 different sizes so architects can mix-and-match and use different lengths for infinite design possibilities. Add a wide range of inspiring and realistic timber finishes and the design options are endless.

100% AUSTRALIAN MADE

ULTRAWOOD is a 100% Australian owned, designed and made product, which contributes to it's outstanding quality and fast lead times. Using ULTRAWOOD aids all aspects of the Australian economy.

CUSTOM DESIGNS

Locally Australian made, ULTRAWOOD battens can be supplied in an almost infinite range of custom sizes, shapes and finishes. Contact us to discuss your unique vision for your next battens project.
